PROFESSIONAL PROJECT

- **Name of Project** - "Placement Call Website" (Ongoing)

- **Description** - Design & Develop website which is useful for Job seeker. Website describe the job openings, Candidate find new career opportunities and apply for jobs.

- **Front-end** - Angular Framework

- **Back-end** - Node Js

- **Database** - Firebase

- **Web-Design** - HTML, CSS, Bootstrap, Javascript, Jquery

ACADEMIC PROJECTS

BE Project - "Note to Note Exchanger"

Description - Requirement of change of high currency in day to day transaction has increased; we have to suffer a lot for the change in various public place. So we thought to develop an exchanger machine which will give us notes instead of note.

Diploma Project - "Audio Rotating Camera Using Sound Sensor"

Description - In conventional video conferencing systems, a person is hired to record the entire process and thus all the recording is done manually by controlling the movement of the camera. This type of arrangement may not work effectively and also not able to track the speaker. We aim to provide rotating camera that will automatically track the speaker and points itself in thatdirection.

CO-CURRICULAR ACTIVITIES

- Participated in District Level Intercollegiate Youth Festival event at Ramkrishna More Arts, Commerce and Science college. Akurdi- October 2018
